

5] State erros if any in the follwing input statements.

- (a) scanf("%c%f%d",city,&price,&year);
- (b)scanf("%s%d",city,amount);
- (c)scanf("%f,%d,&amount,&year);
- (d)scanf(\n"%f",root);
- (e)scanf("%c%d%ld",*code,&count,Root);

Original Code	Error	Corrected Code
scanf("%c%f%d",city,&price,&year);	city should be a char (%c) or a string (%s)	scanf("%s %f %d", city, &price, &year);
scanf("%s%d",city,amount);	amount is missing &	scanf("%s %d", city, &amount);
scanf("%f,%d,&amount,&year);	", " in format string, extra &	scanf("%f %d", &amount, &year);
scanf(\n"%f",root);	\n before format string, missing &	scanf("%f", &root);
scanf("%c%d%ld",*code,&count,Root);	*code should be &code , Root missing &	scanf(" %c %d %ld", &code, &count, &Root);
